

First Announcement

**The 11th International Conference of the Peanut
Research Community**

**On *Advances in Arachis through Genomics and
Biotechnology***

国际花生科学与技术大会, 济南, 中国

October 21-25, 2019, Jinan, China

Organized by

In collaboration with

Since the first International Peanut Conference held in Guangzhou, China in 2006, the international peanut research community has worked through the International Peanut Genome Initiative (IPGI) to integrate genetics, genomics and biotechnological approaches into the process of developing effective, environmentally friendly solutions that mitigate economic risks of peanut production. The IPGI has facilitated and improved collaboration between international scientists and stakeholders through a series of international conferences on *Advances in Arachis through Genomics and Biotechnology* (AAGB), which provide a forum to develop, implement, and report results of scientific research toward strategic plans that ultimately lead to more productive varieties and products of more exceptional quality. The international peanut community through IPGI has come a long way, from lack of availability of molecular markers to the completion and releases of high-quality genome sequences of two diploid (2014) and cultivated peanuts (2018). However, there remains a long way to go for genomics-assisted breeding as routine implementation. Nevertheless, the stage is now set to harvest the fruits of genomics research for peanut genetic improvement, cultivation, and production. This will contribute to the entire peanut community, and global food safety and security in general to fight malnutrition.

The 11th International Conference of the Peanut Research Community on *Advances in Arachis through Genomics and Biotechnology* (AAGB-2019) will be convened October 21 - 25, 2019 in Ji'nan, China. The season is a pleasantly cool autumn at that time. The venue will be the Nanjiao Hotel and Resort (<http://www.jnnjhotel.com/en/>) and Shandong Grand Hotel (<http://www.sdhotel.com.cn/en/>), which is located just south of the Ji'nan City Center near the Thousand-Buddha Mountain and Quancheng Park. Jinan, the Capital City of Shandong Province, also called as the Spring-Water City. Shandong Province is one of the top peanut producing regions in China with an average annual peanut growing area of 800,000 hectares.

AAGB-2019 will be a forum to foster scientific exchange between members of the international peanut research community through oral and poster presentations, and also to discuss the future of the international peanut conference after the completion of peanut genome sequencing project. In addition, the organizing committee would also like to recognize the leaderships and the “real heroes” who have been working tirelessly behind the scenes from the start to the finish, making this IPGI and peanut genome sequencing project a reality and a success story.

Call for Abstracts: The Organizing Committee invites scientists/postdoctoral associates/students to participate and make poster or oral presentations at the conference. Abstracts (maximum 250 words) should be submitted electronically on the attached abstract form by email to: aagb@aagb2019.cn. Please indicate your preference for oral or poster presentation. You will be notified upon acceptance of your abstract.

Please also visit the conference's website at <http://www.aagb2019.cn> (open soon) or <http://peanutbase.org> for the meeting program agenda, registration, housing, visa, updates and other information.

Deadlines: To secure a position for presentations at AAGB-2019 technical program, please submit your abstracts before **July 1, 2019**. Notification of Acceptance and Schedule of presentations will be sent to you before **August 1, 2019**.

Registration fees (\$US):

Before August 1, 2019: \$450 for professional, \$100 for students, and \$250 for spouses.

After August 1, 2019: \$500 for professional, \$100 for students, and \$250 for spouses.

At meeting: \$550 for professional, \$100 for students, and \$250 for spouses.

AAGB-2019

Sponsor Shandong Academy of Agricultural Science (SAAS)

Organizers Biotechnology Research Center (BRC), SAAS
Shandong Peanut Research Institute (SPRI), SAAS

General Program Organizing Committee

Chair Shubo Wan, President, Shandong Academy of Agricultural Sciences, China

Co-Chairs Xinyou Zhang, President, Henan Academy of Agricultural Sciences, China
Steve Brown, Executive Director, The Peanut Foundation, USA
Rajeev Varshney, Research Program Director, ICRISAT, India

Secretary Xingjun Wang, Shandong Academy of Agricultural Sciences, China
Hongjun Zhao, Shandong Academy of Agricultural Sciences, China
Baozhu Guo, USDA-ARS, USA

Members Boshou Liao, Oil Crops Research Institute, CAAS, China
David Bertioli, University of Georgia, USA
Graeme Wright, Peanut Corporation of Australia, Australia
Issa Faye, ISRA, Senegal
Lin Li, Hunan Agricultural University, China
Manish Pandey, ICRISAT, India
Peggy Ozias-Akins, University of Georgia, USA
Ran Hovav, Agriculture Research Organization -Volcani Center, Israel
Ronghua Tang, Guangxi Academy of Agricultural Sciences, China
Sachiko Isobe, Kazusa DNA Research Institute, Japan
Scott Jackson, University of Georgia, USA
Seijo Guillermo, Universidad Nacional de Córdoba, Argentina
Victor Nwosu, Mars Wrigley, USA
Weijian Zhuang, Fujian Agro & Forestry University, China
Xuanqiang Liang, Guangdong Academy of Agricultural Sciences, China

Local Organizing Committee

Chair Zhaohui Liu, Vice President, SAAS, China

Co-chairs Hongjun Zhao, SPRI, SAAS, China
Xingjun Wang, BRC, SAAS, China
Benrong Fan, SAAS, China
Zheng Zhang, SAAS, China
Jianghui Wang, SAAS, China

Secretary Shujuan Chen, BRC, SAAS, China Jiancheng Zhang, SPRI, SAAS, China

Members Xinhua Zhao, SAAS, China Han Xia, BRC, SAAS, China
Shihua Shan, SPRI, SAAS, China Chuanzhi Zhao, BRC, SAAS, China
Hongdui Liu, SAAS, China Zhongxue Fan, BRC, SAAS, China
Yingkai Chen, SAAS, China Xinguo Li, BRC, SAAS, China
Ligui Zhu, SAAS, China Shuzhen Zhao, BRC, SAAS, China
Xiaoyuan Chi, SPRI, China Lei Hou, BRC, SAAS, China
Mei Yuan, SPRI, China Guanghui Li, BRC, SAAS, China
Pu Shen, SPRI, China Zhaohui Tang, BRC, SAAS, China
Quanxi Sun, SPRI, China
